

# HANDS ON SCIENCE COMES TO YOUR SCHOOL

## Elementary Program grades K-5

- ◆ **NO COST TO THE SCHOOL**  
(however any building use expenses would be the school's responsibility)
- ◆ **NO PAPERWORK** The Discovery Center processes all registrations. The Discovery Center will provide the school with a flyer for reproduction and distribution throughout their building or district
- ◆ **NO MINIMUMS** The Discovery Center will run the program with as few as 15 children. We will run the program regardless of the number of children in attendance (most events have 40-100 children) We will provide an additional date if the response warrants it. No one will be turned away!!
- ◆ **SCIENCE OPPORTUNITIES** These hands on science workshops are great for elementary students and are designed to spark and inspire the scientist inside each of us. Children work in groups of 5-7 children (no more than 10 kids per group). Each event will offer at least 12 workshop choices (often **18-22 workshop choices** are offered) . Each child pre-registers and is asked to pick 7 workshops of interest and then he/she will be assigned 3 of his 7 choices for the **Hands on Science Day** or 2 for an **Evening of Hands On Science**. Parents pay \$35 per child for the Hands on Saturday program (Sunday's available to Jewish Day schools) which includes three science workshops and a magic show during lunch. Or parents pay \$20 for the evening of science program. These prices include all supplies.
- ◆ **NO RISK** There is no cost to the school; no administrative headaches, no minimum number of students, so why not take the next step and find out more about the program by **FAXING THIS FORM** to (914) 205-3623 or mail to PCDC % PO Box 222 Carmel, NY 10512 **INFO: (845) 621-1260 ext 201 or email JNewman@DiscoveryCtr.org**
