ONLY \$60 per child for a five week program (1 hour each week)

ONLY \$72 per child for a six week program (1 hour each week)

*** Longer Weekly Programs are available / let us know how many weeks you need***

Learning about science is a fun and exciting adventure for children of all ages. The Putnam Children's Discovery Center offers an opportunity to ensure that the adventure continues in an after school enrichment program. Each week for an hour, a different aspect of science, will be explored through exciting hands-on experiments and activities. Our classes allow children to learn, explore, and participate in the wonders that unfold before their eyes. Our teachers are keenly in tune to the needs of each individual student and make sure topics of interest are covered. Our enrichment programs have been known to inspire children in the future and have helped them understand difficult concepts. Below is a list of some of the science opportunities waiting to be revealed to your students. Let us set out on a science adventure together! Book your afterschool program today.

YOUR STUDENTS CAN EXPERIENCE:

WATER EXPERIMENTS
FOSSILS
AMAZING AIR
DINOSAURS AND CREATURES FROM THE PAST
VOLCANOES & MOUNTAINS
IN THE OCEAN
REPTILES
INSECTS
CHEMISTRY
THE WONDERS OF MAGNETS
OPTICAL ILLUSIONS
OUR UNIVERSE: SOLAR SYSTEM / PLANETS
ROCKS & MINERALS
